Programming Languages

C++, C
PYTHON
MYSQL
HTML & CSS
JAVASCIPT
Java(Basic)

Hobbies

- Exploring concept of real world project
- Painting
- Travelling

Summary

Many years of experience in OOP. Experienced with some dynamic projects using C++ and Python. Besides, I also worked on various Front-end Projects. Have a good concept of C++, C, Python and have intermediate knowledge in MySQL, JavaScript, HTML & CSS. Always try to find new and interesting projects to improve my skills.

Skill Highlights

- OOPs
- Artificial Neural network
- Data Structure
- Front-End
- Python Applications
- Team worker
- Quick Learner
- Optimistic
- Creative
- Innovative

Experience

Carried out assignments on various complex projects using OOP in my school.
Currently working as an Associate Technical Lead in SRMPedia. Also, exploring Computer Vision, i.e. OpenCV library to build real world projects and Machine Learning.
Maintain coding practicing in some online platform like Hackerrank, Srm-elab and so on.

Certifications

Programming Languages (Online Courses): **Python and Javascript,**
Web Development (Verzeo - Wellyf**),**
Hackathon (Hackon - Hackerearth**), (**Data Science Hack 22'**), (**Hack-O-Heist 22'**)**
Machine Learning (*Beginner's level***).**
Workshops and Conferences
